

The **eleventh** of December of 2020

Hello we are Karlijne Wiegers my birthday is twenty fifth of December two thousand six. My name is Simon van den Brekel my birthday is twenty-second may two thousand eight . My name is Ties van Boxtel. My birthday is on the thirtieth of october two thousand eight.

My name is Tobias Stolper. My birthday is on the twenty fifth of October two thousand eight.

We are going to judge on these elements.

1. We **are going to** judge on the taste, we want to taste something tasty.
 2. We **are going to** judge if the food there is vegan, vegetarian.
 3. We **are going to** judge on the appearance, is it beautiful? or not?
 4. We **are going to** judge on the texture, has it a good texture? like crispy, soft, airy?
 5. We **are going to** judge on the ingredients we want ingredients that aren't picked from the internet
 6. We **are going to** judge teamwork: we want good teamwork, not that only one person has done all of the work
 7. We **are going to** judge on the originality. Is it something new? Something spectacular?
- And all this you can score points for.

You can get the **first** point if you have done your best. We can see that it is beautiful and that it is taken care of. We **have got** to pay a lot of

attention and be sure of what they have baked. You can get the **second** point when you have got originality. If they want to get the **third** point, then you have both of them. If you **have got** something special and different from the others, four points. If you got all of them you get the jackpot, five points.

<u>Taste</u>	POINT ONE	point two	point three	point four	point five
<u>Is the food</u>					

<u>vegan or vegetarian?</u>					
<u>We want a good appearance.</u>					
<u>We want the best texture.</u>					
<u>We want good ingredients and that it is not picked from the internet</u>					o
<u>We want the best! teamwork</u>					

How did we work together?

Karlijne:

Sometimes it's hard to work together because it sometimes feels like I do all the work. But they are really nice and that makes it a lot better. I do think I am not going with this group again. But they are my friends so i am not mad. I do think we are going to do great because they HAVE a piece of sense. No I am just kidding. It was very funny to work together and we were always messing around.

Ties:

We were not working together, Simon and Tobias were not doing much, Karlijne did all the work.

because i was just doing nothing,

Tobias was watching videos,

Simon was working but not that good,

and then I was just working a bit.

I just did "upgrading" the document.

Tobias did nothing again and simon I think the things at top so we did not work together that well. We just did stuff or not. and we have to change that the second time.

Tobias: It was good cooperation but we have all the orders but it crashes down. Then Karlijne did everything, I can do more. But it was good cooperation. Karlijne says what we need to do and we're gonna do that, but the last time we didn't do that. We do useless things but we don't need that for school.

We need to work more seriously. We can do that. But we don't do that and that is not good. We need to work serious. Karlijne says all the time that we need to work. But we didn't do that. Karlijne says the things that we need to do. That is good but we didn't do that. That is our mistake. We need to do that better the next time we're gonna do that.

Simon:

It was a very good cooperation because Karlijne was the boss and she gave us a task and we got to do that. That's really nice. Karlijne helps us very well and Ties and Tobias help me well. Sometimes we don't have good cooperation because we do other things. We can work seriously but we didn't do that. We are very fast on the begin and then we don't know what we can do so that's not so good than we do nothing.
