

Good afternoon,

My name is Bobby. I am 12 years old and come from a village called 't Woudt. This is one of the smallest villages in the Netherlands.

I really enjoy sports. I practice football two times a week, on Mondays and Wednesdays. I like my football team. I have many friends who also play football. Beside football, I also like skateboarding. Skateboarding is very difficult, because you have to balance a lot.

My family is not very big. I have one small sister. She is 8 years old. I sometimes play games with her. She does not like football. She enjoys cooking. Sometimes she helps my mother in the kitchen with cooking.

When I grow up, I want to be an architect. I would like to design big buildings where many people can live. They also need to be colorful because most buildings now are a bit boring.

This is all the basic information about me.

Until next time!

- Bobby
