# Place Label

The screenshot shows the Autodesk Revit 2024.2 interface. The ribbon is set to 'Modify' > 'Area'. The Project Browser on the left shows a tree view where 'oB\_label' is selected and highlighted with a red box. The main view displays a 3D model of a brick structure. A red box highlights the text 'Number of bricks: 25' in the model's data. Other data points shown are 'weight of Project: 0' and 'Cost of Project: 0.00'. To the right, there is a pie chart showing material distribution: 88% grey, 9% orange, and 5% white. Below the pie chart is a table titled 'LHouse Data Overview' with columns for Cost, Family, Type, Weight (kg), Material, Cost (Euro), and Comments. The table lists various brick types and their associated costs. At the bottom right, the text 'Boris Baehre, BABO, 12.09.2024' is visible.

**LHouse Data 01**  
**Number of bricks: 25**  
 weight of Project: 0  
 Cost of Project: 0.00
